

Health Promotion/Disease Prevention

The unit promotes health and prevent diseases through health education and campaigns (e.g. World HIV/AIDS Day), counselling and vaccinations of some diseases of public health importance (Hepatitis B, Tetanus etc.) to pupils, students, staff and faculty.

On Campus screening during World HIV/AIDS Day

On the 1st of December, 2018 World HIV/AIDS Day, Sr. EFMFC in partnership with Buea District Health team screened students, staff and faculty on campus for HIV. Amongst the District Health team was the focal person for the HIV/AIDS treatment centre who linked positive cases for treatment to the South West Regional Hospital Annex Buea.

Students sensitizing the Buea Community on HIV/AIDS

In a bid to achieve its mission to improve on the health of pupils, students, staff and faculty of CUIB and the Buea community at large, CUIB students on World HIV/AIDS Day moved with banners carrying messages to further sensitise the community on HIV/AIDS

Screening for Hepatitis B

The CUIB – Sr. Emmanuella Fomenky Memorial Foundation Clinic (SR. EFMFC) in partnership with The Global Forum for the Defence of the Less Privileged (GFDLP) an NGO, carried out a two weeks campaign from the 18th June to the 30th of June, 2018 to sensitize, screen, vaccinate and treat the CUIB community for Hepatitis B Virus infection. 239 persons were screened for Hepatitis B virus, 226 persons tested Negative for Hepatitis B virus while 13 persons tested positive. The positives for Hepatitis B virus were referred to the internist at the Buea Regional Hospital for treatment and follow up.

Vaccination against Hepatitis B Virus

During the Hepatitis B campaign, 97 persons who tested negative were vaccinated against Hepatitis B virus.

Clinical services/ Medical Care

A competent medical team offers qualitative health services daily through consultations, laboratory investigations and others. Sr. EFMFC offers client friendly and amiable health care services to members of the CUIB family.

Consultations

At consultations, the client is received and vital signs are monitored, after which the doctor examines him/her. Due to the client friendly services offered at Sr. EFMFC we receive so many members of the CUIB family. **1,001 persons** consulted at Sr. EFMFC a.k.a the health unit for 2017/2018 academic year.

Laboratory investigations,

Sr. EFMFC has an equipped laboratory in which essential laboratory investigations are carried out for members of the CUIB community on daily basis and the Buea community during health outreach activities. In the 2017/2018 academic year, **749 clients** visited the Sr. EFMFC laboratory with **1854 laboratory** tests done.

The unit has a minor pharmacy

To meet the immediate and emergency needs of clients, the Sr. EFMFC runs a minor pharmacy in which are found essential medications. Clients whose prescriptions cannot be found in this pharmacy are referred to external grander pharmacies just few metres from the clinic.

Observation Room

CUIB is a Higher Institution of Learning with the hassles and anxiety found in a higher institution. Thus, members of the CUIB family can confidently relieve these emotions in the Sr. EFMFC as the medical team is equipped and skilled for a Higher Institution of Learning.

Sr. EFMFC boost of its observation rooms (male and female) where emergency and basic treatment is carried out for her clients after which the client returns home.

Severe cases are referred to the South West Regional Hospital Annex Buea and/or Mount Mary Hospital, Buea just a few minutes' drive from CUIB
